PROJECT AGROSCAN

https://agroscan-lumitech.netlify.app/

Soil Test

Analyze soil nutrients and get precise recommendations.

AI Chat

Ask AgroBot questions about crops, pests, and irrigation.

Crop Recommendation

Suggests profitable crops based on soil and climate.

Water Management

Plan irrigation schedules based on crop and soil needs.

Crop Yield Estimator

Estimate expected crop yield based on conditions and area.

Pesticide Usage

Safe pesticide recommendations per area and crop type.
